Vector Icons

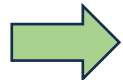

<https://www.npmjs.com/package/react-native-vector-icons>

Instalação – Vector Icons

npm install --save react-native-vector-icons

- Editar o arquivo: android/**app**/build.gradle (NOT android/build.gradle) e adicione o seguinte comando:

`apply from: file("../..../node_modules/react-native-vector-icons/fonts.gradle")`

```
1  apply plugin: "com.android.application"
2  apply plugin: "com.facebook.react"
3
4  apply from: file("../..../node_modules/react-native-vector-icons/fonts.gradle")
5
```

- Para o macOS, consulte a documentação. 🙏

<https://www.npmjs.com/package/react-native-vector-icons>

Uso – Vector Icons

```
import Icon from 'react-native-vector-icons/FontAwesome6'
```

```
<Icon  
  name='church'  
  size={30}  
  color='green' />
```

- Obs: Consulte a biblioteca específica para verificar os nomes dos ícones. Neste exemplo acima, consulte:

<https://fontawesome.com/search?o=r&m=free>

<https://www.npmjs.com/package/react-native-vector-icons>

Radix

Instalação - Radix

- npm i radix-ui-react-native-icons
- npm i react-native-svg
- (macOS) npx pod-install ios

<https://www.npmjs.com/package/radix-ui-react-native-icons>

<https://www.npmjs.com/package/react-native-svg>

Uso - Radix

```
import { RadixIcon } from 'radix-ui-react-native-icons'
```

```
...
```

```
<RadixIcon  
  name='letter-case-capitalize'  
  size={30}  
  color='green' />
```

Obs: Use os nomes do site considerando todas minúsculas com – (hífen) no lugar dos espaços em nomes compostos
